K-12 Education and Outreach, Mathematics Department

MATH 5080
Mathematics for Secondary School Teachers

March 2, 2013
9:00 am – 2:30 pm (lunch provided)
406 Malott Hall

Workshop Title

Valentine's Day Redux: Falling in Love with Mathematics!

Overview

Do you remember learning a specific mathematical topic that motivated you to learn more mathematics? Or perhaps it was a particular teacher who inspired your career choice? Come hear four mathematicians at Cornell talk about their passion for mathematics and some of the topics that made them fall in love with the subject. Each presenter will strive to enhance your content knowledge and also engage you in some interactive activities. Correlations to the CCSSM will be provided.

Presenters

Ana Rita Pires – *Paper Folding Geometry: How Origami Beat Euclid*

Ravi Ramakrishna – *Some Problems in Mathematical Modeling*

Tara Holm – *The Topology of Trousers*

Rodrigo Treviño – *Math and the Solar System: Drama, Chaos, Beauty, and Tragedy*

RSVP by Thursday, February 21, 2013
