Special Workshop for Teachers

Saturday, September 21, 2019

Catalyzing Change in High-School Mathematics:

Unpacking Challenges, Having Critical Conversations, and Taking Next Steps

How might we make high school mathematics work for more students? High school mathematics does not work for a lot of high school students. From the essential concepts needed by all students to increase their opportunities to the policies, practices, and procedures that exist in many schools, we will engage in critical conversations and will look to next steps to make high school mathematics education work for each and every student.

Attendees will receive a free copy of this book!

Karen Graham, Ph.D.
Univ. of New Hampshire

John W. Staley, Ph.D.
NCSM Past President
Baltimore County Public Schools

The workshop will take place from 9:00 a.m. to 2:30 p.m. A continental breakfast will begin at 8:30 a.m. Lunch will be provided. There is no cost to attend, unless you want to earn Cornell University credit.

RSVP by Sept. 10 https://cornell.qualtrics.com/jfe/form/SV_9tdlsiyOVK9fFHL
