

Impostor Syndrome Panel

Undergraduate Math Club
CORNELL UNIVERSITY

All these people really seem to have it together,
and I still have no idea what's going on.

azilliondollarscomics.com

ABSTRACT

We will be hosting a discussion about impostor syndrome in mathematics, featuring a panel with undergraduate, graduate, or professor representatives. Whether you have personally experienced impostor syndrome, in mathematics or not, or are curious about it, everyone is welcome to listen and participate. (It's okay to be a little late!)
