MATH 5080

Mathematics for Secondary School Teachers

October 5, 2013
9:00 am – 2:30 pm (lunch provided)
406 Malott Hall

Workshop Title

Nspired Learning: Everything You Need to Know About
Integrating the TI-Nspire Calculator into Your Math Classroom

Overview

We will look at the TI-Nspire CX and TI-Nspire CX CAS and associated software for teachers. In this workshop participants will explore mathematics in a hands-on fashion and learn ways in which the latest tools from Texas Instruments can be used for implementing the CCSS.

Presenter

Dana Morse is a former high-school mathematics teacher for Moravia CSD and Skaneateles CSD and T³ Instructor. He is now the Partnership Development Consultant for New York and Pennsylvania, working with school districts and colleges to assist them in their educational technology plans and integration.
