

## Resources:

- *Interactive Differential Equations* (free)  
(Hohn, Strogatz, McDill, Cantwell, West)  
<http://www.aw-bc.com/ide>

The original package of 99 tools.

See *Phase Plane Drawing* (precursor of DE Sketchpad), *Pendulums*

- *DE Tools* (Blanchard, Devaney, Hall) (not free)  
<http://www.cengagebrain.com/shop/isbn/9780495562009>

We used *DE Sketchpad*, *HPGSolver*;

*Pendulums* and *Pendulums Sensitivity* are similar to the IDE tool, but do only two of the four cases in the original.

I will put the talk slides and handouts on the website for Math 5080.
