Huibin Zhou
Department of Mathematics
Malott Hall

Dear Huibin:

It is a pleasure to award you the Hutchinson fellowship for the spring semester 2001. You were selected because of your excellent performance, based on my review and that of other faculty members.

This fellowship is typically awarded to 3rd or 4th year students who are starting to work on their thesis. It provides relief from teaching for one semester. I hope that you will make good use of this time and am looking forward to hearing about your progress.

Sincerely,

Dan Barbasch
